

## **Press – Info / Roar!Machine** - the kraut version of Rose Tattoo

Founded on the 5<sup>th</sup> January, 1996 after some bottles of beer. This band, named Los Tattos then, was originally supposed to be a fun project. But soon we realized that the

people really liked that Rose Tattoo stuff. Since then the band has been touring from gig to gig, playing on open airs or biker parties. One high light was to play right after Rose Tattoo on the Motorcycle Jamboree in 2002. Since then we have been writing our own stuff. Being disciples of the Old School Rock'n Roll, we call our stuff kick-ass-Rock'n Roll. This music has everything, from a hard kick into the guts to some speedy acts of violence making professional, semi-professional or rookie moshers bang their brains out. The crowd will witness a breathtaking 90 minute live show with many Rose Tattoo classics like "Nice Boys", "Butcher and Fast Eddy" or "Rock'n Roll Outkaw" as well as own songs.
